PROFILE

I characterize myself as a dedicated professional with strong organizational skills, a self-driven learner, and a proactive individual. I possess the ability to seamlessly adapt to new challenges, which is why I confidently affirm my capacity to enhance my skills and acquire new knowledge daily through the diverse job opportunities that come my way

EMPLOYMENT HISTORY

FullStack Intern at Nursa

August 2023 — November 2023

- Contributed to the development of a React-based application for automating nursing license verification
- Translated Figma designs into responsive and pixel-perfect front-end code
- Utilized web scraping tools to extract nursing license information from various sources
- Implemented backend functionalities for data processing and accurate license verification

Customer Service Representative at Sitel

April 2022 — January 2023

- Conducted in-depth analysis of customer accounts to identify and prevent fraudulent activities.
- Utilized advanced fraud detection tools and technologies to monitor transactions and identify potential risks
- Investigated suspicious transactions, collaborating with cross-functional teams to mitigate fraud and protect customer assets
- Communicated effectively with customers to verify transactions, resolve issues, and provide education on security best practices
- Implemented and updated fraud prevention policies and procedures to stay ahead of emerging threats
